A RELIABLE DOLL...
The dream of every child
... is much more than the name of a company. It is a statement of the policy which has endured through the years and won a host of friends all over the world. Where the name "Reliable" appears you can be sure of reliable quality. For example, "Reliable" dolls, introduced in 1920, have made their way into the hearts of children everywhere. There are more "Reliable" dolls sold in the British Commonwealth than any other make.

This record was not made by chance. It is an outgrowth of a tradition of careful craftsmanship maintained through the years. This quality has been recognized by retailers and by customers alike. "Reliable" pledges that, in the future as in the past, it will continue to carry on a policy proved trustworthy by time.

It is our pride and our intention that "Quality second to none" shall continue to be our guiding principle, and it is our hope that we shall be able to serve you well in months to come.
