

Summary of the Privacy Impact Assessment (Web Summary)

Title

Raiser’s Edge

Description

Under Section 9(1)(l) of the *Museums Act*, the Canadian Museum of History is permitted to solicit financial donations to support its operations. Raiser’s Edge is a software application designed to support the fundraising and donor relations activities of the Canadian Museum of History.

Why a privacy impact assessment was completed

The Canadian Museum of History will transition from the on-premises version of Raiser’s Edge to a new one hosted on cloud-based servers. These changes resulted in a modification of data flow for personal information collected for financial donations purposes. As a result, the Museum conducted a privacy impact assessment.
